

COMP AIR 6

The **Comp Air 6** features comfort and room for the whole family for a weekend get-away — with seating for up to 6 people. It is a year-round, go-anywhere aircraft and is available with wheels, floats, or skis. You'll have plenty of room for camping, fishing, and hunting gear.

The Comp Air 6 is an efficient, economical cross-country cruising machine for pleasure or business. It will provide you with the ability to enjoy cruise speeds from 150 to 200 mph. It is simple and easy to assemble.

Recommended engines for the Comp Air 6 range from 220 to 300 hp.

Comp Air 6 kits being readied for shipment from the factory.

Also available with:
Widebody Option
(extra 4" cabin width)
or Taper Wing Option
(faster cruise)

All Aerocomp kits are simple and easy to assemble. Numerous options are available so that you may build the airplane that is perfect for you.
